Tamil

PROFILE

As a recent graduate, I am enthusiastic about the dynamic intersection of technology and design. My skill set spans HTML, CSS, and JavaScript, coupled with proficiency in popular design tools like Figma, Adobe Photoshop, and Adobe XD. I aspire to contribute my abilities to the creation of user-centric and visually appealing web interfaces. Eager to collaborate and adapt within diverse teams in the realms of design and development.

PROJECTS

Learning Management System

7/2023 - 10/2023

- Develop a comprehensive online learning platform featuring online courses, interactive quizzes, and a vast repository of study materials.
- Provide a user-friendly interface for students to access a variety of courses, enabling self-paced learning.
- Offer instant feedback through quizzes and a rich library of study materials to enhance the online education experience and cater to diverse educational needs.
- Technologies: HTML, CSS, JavaScript, PHP and MySQL.

E-Library Mobile Application

9/2023 - 10/2023

- Designed and implemented a expo react native application.
- Enable users to search a book through online by using open library API.

Online Bonafide Certificate Generation System

1/2023 - 04/2022

- Create a user-friendly web application for students to easily acquire Bonafide certifications and apply for education loans online.
- Digitize the entire process with efficient file management and reference tracking through a client-server architecture.
- Technologies: HTML, CSS, JavaScript, PHP and MySQL.

INTERNSHIPS

Front End Development

- Virtual internship at TECH QUEST CONSULTANCY for 1 month.
- Played a key role in frontend development, collaborating with designers to transform visual concepts into responsive web interfaces using HTML5, CSS3, and JavaScript. Proficiently utilized Figma, Adobe Photoshop, and Adobe Express to ensure polished user experiences.

Web Development

- Completed a one-month self-paced web development internship at LETS GROW MORE, emphasizing HTML5, CSS3, and JavaScript.
- Demonstrated self-motivation and discipline by successfully finishing tasks and projects in a flexible work environment.
